PROJECT MANAGER, CERTIFIED JAVASCRIPT-FOCUSED FULL-STACK DEVELOPER, BLOCKCHAIN & NFT ENGINEER

I have the knowledge, skills, and passion for web development and blockchain.

My experiences, educational background, and work history will attest to my credibility and capability.

My clients were satisfied with the excellent results and services I have rendered them.

I keep on updating myself with the latest trends, and best and most effective strategies through ongoing education, training, and workshops.

I have a Master's Degree in Computer Science. Not only that, but I have training certificates for website development, graphic design, and digital marketing.

I have full experience in Blockchain and Machine Learning.

Certified in both F/E and B/E technologies.

I give my best in everything I do because I hate mediocrity and always strive for excellence. I am detail-oriented, creative, innovative, punctual, and professional.

REVIEW

-- M1neral.com in US --

"Ari is amazing!

We are so happy with his work we will continue to use him to carry out all our online duties!

He is right onto a task from the moment I ask him, and if I have an idea of something I'd like to create he always has excellent ideas on how best to go about the task and things I never would have thought to include to make it more user friendly.

IT is not my forte, I'd be so lost without Ari, he's been a very important part of business and someone we rely on daily.

Thank you, Ari!"
