## Awards / Achievements

---

### **Outstanding Performance At Backend Development**

November 2020

## Projects / Papers Presented

---

### **Education Portal**

<https://internal.i-learning.sg/>

- Technology Used - Yii2 (PHP framework), Javascript, JQuery and MySQL Database
- Education portal is a system which allows tutors and students to connect digitally for great learning experience. In this system tutor can dynamically create subject, topics and their assessments which includes the MCQ's, and also they can connect o Jitsi for video lectures
- Also interacted with the Client for the flow and changes on the project

### **Multi Vendor ECommerce Project**

<http://eshop.doktoroman.com>

- Technology Used - Codeigniter (PHP framework), Javascript, JQuery and MySQL Database
- Worked on the complete flow of multi vendor e-commerce website. There were 4 panels in the website i.e User website, two vendor panels managed dynamically, logistics and importers panel. In this project I have managed complete flow of e-commerce like cart system, logistics delivery system, Inventory system and also managed the payment transactions
- Involved in Client handling to discuss the flow and changes of project

### **Albesat Carpet**

<http://www.albesat.com/>

- Technology used - Core Php, Javascript, jQuery and MySQL
- Albesat Carpet is all about showcasing the expensive carpets. I have managed the complete backend functionality including the e-commerce flow and the online auctions for the carpets

### **Doktoroman**

<http://doktoroman.com/>

- Worked on the some of backend functionality for listing the doctors and appointment booking flow

### **Luxury Vip Holiday**

<https://luxuryvipholiday.com/>

- Worked on the backend functionality for merging the privadia api's data and database's data to list the luxury villas for booking
